OVERVIEW

Dedicated and results-oriented Computer Science graduate with a strong academic background and hands-on experience in software development. Proficient in Java, Python, and web technologies, I bring a problem-solving mindset and a commitment to excellence. Additionally, I possess a solid foundation in basic computer knowledge, including proficiency in operating systems like Windows, macOS, and Linux. I am skilled in using the Microsoft Office Suite (Word, Excel, PowerPoint) and efficiently navigating the internet and email communication. My strengths also include organizing and managing files and folders, basic troubleshooting, and fast, accurate typing.

EXPERIENCE

Car And General   05/2023 – 08/2023   Intern – IT Support

- Assisted in maintaining, diagnosing and troubleshooting of computer hardware and software issues
- Supported the IT team in the setup, configuration and management of network infrastructure

s

Freelance Developer   02/2022 – Present   Freelancer

- Successfully completed many projects, ranging from web development using JavaScript to mobile applications using React Native.
- Established strong client relationships, receiving positive reviews and testimonials for delivering solutions on time and within budget.
- Demonstrated expertise in hardware repair and troubleshooting.

EDUCATION   **Murang'a University of Technology**

2020 – 2024   Bachelor of science in Computer Technology

- Relevant coursework:
    - Data Structures and algorithms
    - Machine Learning and AI
    - Introduction to programming
    - Object oriented programming
    - Mobile Application development
    - Web application Development
    - Networking
    - Business intelligence
    - Introduction to cybersecurity
    - Operating systems

Cisco Academy

Continuous   Certifications

- Introduction to IOT and digital transformation
- Operating Systems Basics
- Networking devices and initial configurations

SKILLS

Full Stack development using:

1. Python – Django framework with understanding of the RESTful Api.
2. JavaScript - Experienced in both web development and mobile development using technologies such as React Native.

Database management:

1. Relational Databases: Skilled in designing, implementing, and managing relational databases, with a focus on MySQL.

Familiar with computer networking and protocols
Knowledge of operating systems such as Windows and Linux
Basic Computer Knowledge like Microsoft Office Suite, file management, basic Troubleshooting and typing Skills
